

## **A new step for ACOEM with FIXTURLASER acquisition**

**ACOEM confirms its good performance through the acquisition of a major player in rotating machine maintenance: the Swedish company FIXTURLASER.**

A major step taken by ACOEM in its strategy to strengthen its position in the field of predictive maintenance. Complementing ONEPROD condition monitoring solutions, FIXTURLASER laser alignment device sets ACOEM among market leaders in the field of smart industrial maintenance.

ACOEM and FIXTURLASER both share the same philosophy and goals: offering smart and user-friendly systems to maximize reliability and productivity of industrial assets.

---

### **About FIXTURLASER:**

FIXTURLASER is a global player and leader in developing innovative, user-friendly equipment for shaft alignment. Since its beginning in 1984, FIXTURLASER has helped industry throughout the world achieve more profitable and sustainable production.

### **About ACOEM:**

ACOEM offers comprehensive products and services comprising smart monitoring, diagnosis and solutions, drawing upon its unique expertise in the field of vibrations and acoustics.

Once a subsidiary of a global industrial group, 01dB-METRAVIB evolved into ACOEM, a successful SME, through a Management Buyout. EVOLEM, major shareholder to ACOEM, gives full support to this venture in following its growth strategy.
